

System Engineer

Bee part of the Swarm.

Do you want to be part of a company that is a hive of activity?

An enthusiastic team powers us and we strive on the outstanding agility and understanding of customer requirements to always stay ahead. Be part of a team that creates and develops technology that empowers human development.

ThinkParQ helps customers maximize the value of their data by developing some of the fastest, scalable, flexible, and robust products and solutions for all performance-oriented environments including HPC, AI and Deep Learning, Life Sciences, and Oil & Gas (to name a few).

Established as a spinoff from the Fraunhofer Center for High-Performance Computing, ThinkParQ focuses on the research and development of technology that empowers human development.

Job Description

As a ThinkParQ system and support engineer for BeeGFS, you have the important job of delivering support to BeeGFS users and making sure that they get the most out of their systems:

- Help our partners and customers to design, setup and tune BeeGFS storage solutions
- Respond to support requests from our customers around the globe
- Visit conferences and workshops
- Help optimizing BeeGFS for new hardware generations and platforms
- Test new releases of BeeGFS
- Have a lot of fun as you see that your work enables our customers to solve their tough problems and helps to steadily grow the BeeGFS community around the globe

Required and Desirable Skills

- Familiar with general Linux system management
- Experience in storage infrastructure management is an advantage
- Experience in Linux cluster management is an advantage
- Familiar with commonly used scripting languages like Python and shell scripting
- Ability to read C/C++ code or other common programming languages and to write simple programs is an advantage
- You should be able to prioritize tasks, to deal with responsibility and to think proactively
- You should be fluent in English and German language skills an advantage
- The quality of your work needs to be of utmost importance to you to make sure that our users can rely on our software for their business critical applications

You will be working primarily in HQ in Kaiserslautern, or home office.

Please send your application to hr@thinkparq.com
